## DISCOUNTS

Any item listed as a discount is a merchandise discount only and not an insured benefit. Discounts vary by providers, see provider for details

- Up to 20% Discount off balance above Frame Allowance
- 50% discount varies by provider, ask provider for details.
- Additional contact lens discounts, above the allowance, may require an annual supply purchase for certain brands. See provider for details.
- Contact lenses are a medical device regulated by the FDA and to ensure safety the patient is expected to follow the doctor and/or FDA approved wearing schedule by modality as well as recommended cleaning, disinfecting and storing instructions.
- All contact lens wearers are encouraged to have a back-up pair of prescription glasses. In the unlikely occurrence of an infection or other contact lens related concern, your Optometrist may require you to stay out of your lenses for a period of time. COVID-19 and other infections are easily transmitted via contact of the fingers and the eye and often infiltrate the storage case requiring a new contact lens case be used frequently. The preferred and safest modality of contact lenses is single-use daily wear lenses, which do not require solution, cleaning regimens or storage cases. See provider for details.

Refractive Surgery - LASIK, PRK (photorefractive keratectomy) and Visian ICL (interocular collamer lens) are provided by Standard Optical Ophthalmologists and is a discount off of usual and customary retail. Prices are subject to change. Pre and post-operative care are provided by Standard Optical Optometrists and Opticare members interested in Refractive Surgery are entitled to a free consultation at no additional cost. Financing is available through Care Credit.

Out of Network – Out of Network benefit may not be combined with promotional items. Online purchases through licensed and authorized channels only. Unauthorized distributors, on-line or otherwise will not be eligible for reimbursement. Benefits reimbursed will not exceed the stated allowances. Lens allowance is for one pair of prescription lenses, options and coatings. Allowances are applicable to one encounter and one pair, and do not carry a balance and do not accumulate or rollover. To submit an out-of-network claim please visit [www.opticarevisionservices.com](http://www.opticarevisionservices.com) for details and to submit claim electronically.

You can schedule your exam or order contact lenses on-line at [www.standardoptical.net](http://www.standardoptical.net) or call 385-270-8200. Download member app MyOpticare today!
