New Web Features

Vision Plan Savings Calculator allows the broker and client to calculate an ROI based on employee data

Eyewear Builder allows members to build their glasses, based on their hobbies, career and specific eye care needs.

Real-time eye exam scheduling. Other sites only let you request an exam time and hours later, someone calls to tell you if it's available or not. Ours allows you to see real-time open slots and select your exact appointment time.

Opticare Plan Advantage

Opticare Plans always give members a better deal with lower co-pays, lower premiums and better product allowances. When it comes to network, other plans make you choose between private doctors and regional or national chains. At Opticare, we have the private Optometrists, regional chains and national retailers. As if that's not enough, we have out of network benefits whereby the member can submit a receipt for reimbursement if they visit a non-contracted provider. Let our team compare side-by-side a retail transaction with Opticare and our competitors. Finally, we have a local support team available to you at a moments notice.

Price Comparison	Retail	Opticare	Competitor 1	Competitor 2

GOOD GRADES REQUIRE GOOD VISION

Member and HR Portals

Member and HR portals give Opticare clients unprecedented access to eligibility, claims status, on-demand card printing, change forms, etc. and HR reps can now easily update changes, adds and terms, as well as status and eligibility changes. All plan designs, certificate of coverages and contracts are available with a click of the mouse.

MyOpticare App is available for iPhone and Android for free and gives the member all the function of the member portal at their finger tips.

Member Safety & COVID-19

Provider Locator • E-Forms

Our new provider lookup tool is updated daily to provide members with access to all 30,000 providers anytime. This tool shows the location, hours of operation and interfaces with Google Maps for driving directions.

When it comes to applications, enrollment forms, change forms, out-of-network claim forms, etc. we now have every possible form available for electronic submission. No more printing PDF's and attaching receipts before mailing an out of network claim form. Now members can submit OON claims real time by uploading a picture of their receipt. Over 20 different forms and submission documents are now available.

Opticare Vision Services was recently recognized by WebMD as a national leader in COVID-19 protocols, patient safety and non-contact eye exams. Whether it's in a physical office, via telemedicine or during a visit to our mobile on-site clinic, Opticare Vision Services can insure patient and employee safety while providing an eye care experience that is seamless and easier than ever.
