# THE NETWORK OF VARIETY

## Select Network vs Broad Network

**Select Network** – Opticare has negotiated additional plan enhancements with Standard Optical such as \$0 co-pays for exams, materials, and upgrades as well as increased frame allowances. With 20 locations to serve our members in Utah, they are the local market leader. Since they are only located in Utah, providers outside of the state of Utah will honor select network benefits. So, if you need vision benefits while on vacation outside of Utah, our providers will honor the select network benefits. To learn more about Standard Optical visit [www.standardoptical.net](http://www.standardoptical.net).

**Broad Network** – This is the largest portion of our network that includes virtually every Optometrist and the best regional and national chains like Visionworks, America's Best, Eyeglass World, ShopKo Optical and more. Although co-pays and allowances are slightly better in the select network, the broad network benefits are the same or better than comparative plans. In direct comparison to competing vision plans like VSP or EyeMed, the Broad Network benefits are 5-15% better. Ask your rep for a competitive analysis.

**Out-of-Network** – Any licensed optician, optometrist or ophthalmologist that is not contracted with us is considered Out-of-Network. The benefit allowances listed in your plan description can be used at places such as Walmart and Costco, as well as online retailers such as 1-800-CONTACTS. Because all the providers in the Select and Broad Network have a contract with Opticare, benefits are received at the time of service. For Out-of-Network benefits, members are required to pay at the time of service and Opticare reimburses the member directly once a simple claim is filed. Opticare Out-of-Network benefits are a great way to insure you can save money no matter where you get your eye care services. Opticare's out of network amounts are largely regarded as the best in the industry and the final piece to the most comprehensive network in the country. Claims can be submitted on the website with a receipt or printed and mailed in to: Out of Network Claims 1901 Parkway Blvd. Salt Lake City, UT 84119.

Additionally, we are constantly adding quality providers to our network. If you have a particular provider you would like to see added to the network, send the information to [providers@opticarevisionservices.com](mailto:providers@opticarevisionservices.com) and we will send them information on joining our panel.

**A network of independent optometry providers, the nation's best chains and the industry's richest out-of-network allowances.**

Appointments for any Select Network provider can be made via the website or by calling 833-886-2020

On-line eyeglasses and telemedicine capabilities are just a few of the new features in the Select Network.

## SELECT NETWORK: STANDARD OPTICAL

As a Utah family-owned regional chain, Standard Optical's locations, 21 in total, have agreed to offer better benefits such as reduced or eliminated co-payments and increased frame and contact lens allowances that are \$10-\$20 more than Broad Network providers

With licensed Optometrists at every location and walk-in appointments available, Standard Optical's network spans from Logan to St. George. Their product offering includes 350+ frames priced at \$130 or less. While most optometry offices only carry about 400 frames total, Standard Optical locations carry 1000+ frames in various price points.

**Standard Optical's new e-commerce eyeglass site allows Opticare members to use their benefits on-line for frames, lenses, and sunglasses.**

Easy to navigate, high-tech and comprehensive are a few terms used to describe Standard Optical's new online eyeglass site. With access to a live, virtual optician that will video conference during your session to help with lens selection. Talk to your plan administrator about access to an online eyeglass purchasing experience like no other.

 **Standard Optical**  
Where Good Vision is Always in Fashion.

  
**Opticare Vision™**

Opticare providers pass stringent NCQA guidelines and are all full-service providers for exams and hardware.

The Broad Network consists of 40,000+ providers in all 50 states. To look for providers in your area visit our website.

OUT-OF-NETWORK claims can be submitted with your receipt for quick payment
